

ONE TOUCH DATA CAPTURE FOR ALL POST-BIND PROCESSING

FULL AUTOMATION

STRIPE® is a web based platform that seamlessly connects brokers, carriers and cedants. Combining rapid process automation with interactive portal access, it enables digital processing for all post bind transactions. Simplifying movements and transactions in real-time, without the need for re-keying.

FLEXIBLE ACCESS

KEY BENEFITS

-  Robust Management Information
-  ACORD Structured Data
-  Multiple Risk Types
-  Full Audit Trails
-  Straight Through Processing

Acting as the global messaging hub, STRIPE's single point of access is the gateway to 350+ carriers and brokers. Transforming data with ACORD standards, Bureau messaging, interactive e-mails and 24/7 web access. From the smallest broker to the largest carrier, STRIPE® is fully scalable without constraints on processing or data capacity.
